**Homicide Reported in Trenton**

**TRENTON** -- On October 29, 2014, Trenton police were detailed to Capital Health Regional Medical Center to follow up on a possible assault. Upon arrival, it was learned that two male residents of the Water's Edge Healthcare and Rehabilitation Center in Trenton, ages 71 and 46, were admitted to the hospital for evaluation on October 28. The 71-year-old man succumbed to his injuries on October 29 and the Mercer County Homicide Task Force was contacted. An investigation has revealed that the men were involved in a verbal dispute that ultimately became physical on October 28.

On October 31, an autopsy was conducted by the Mercer County Medical Examiner's Office. The death was ruled a homicide caused by a massive subdural hematoma. No charges have been filed and the investigation is ongoing.
